**PCN Number** 11988**Title** Refinitiv FX Trading – Important Mandatory Upgrade Notification**Product** Refinitiv FX Trading**Summary** Refinitiv FX Trading – New Refinitiv Domains & Mandatory upgrade of FX Trading by end July 2021

Revision Date	Revision Reason
04 Nov 2020	Attachments removed to reflect changes to dates in Obsolescence Policy, and changes to FQDNs in the
04 Nov 2020	Attachments removed to reflect changes to dates in Obsolescence Policy, and changes to FQDNs in the
16 Sep 2020	Update to Network Summary Guide and changed effective date.

**Effective Date** 31 Jul 2021**Description** This important update is intended to give forward visibility regarding some changes related to the FX Trading Application (FXT).

As part of an exercise to improve Refinitiv infrastructure some changes are taking place to the FQDNs used to access FXT services. These changes mean that after the end July 2021 (one year from when this notification was published) certain FQDNs currently in use will become obsolete and cease to work, and new Refinitiv FQDNs have been introduced to replace them.

Please note the following:

- 1) Because some FQDNs used by the FXT Application are changing, as a result of the way the system works this requires us to release a new version of the FXT GUI that is designed to use these new FQDNs.
- 2) By the end of July 2021 (one year from when this notification was published) any versions of FXT currently in use will cease to be able to connect to FXT services and will become obsolete.
- 3) All FXT customers must upgrade to a new version of FXT by end July 2021. FXT 7.7 was released in October 2020 to allow sufficient time for customers to upgrade.
- 4) As a result of these changes any customer who is upgrading to 7.7 must ensure their network is open to the new Refinitiv FQDNs in order for 7.7 to work.
- 5) The FXT Network Summary Guide has been updated to help customers prepare for these changes. This can be downloaded from MyRefinitiv here: <https://my.refinitiv.com/content/dam/myrefinitiv/products/10819/en/Technical/565659.pdf>

6) The Obsolescence Policy document has also been updated to note this temporary amendment to our version end of life procedures. This can be downloaded from MyRefinitiv here: <https://my.refinitiv.com/content/dam/myrefinitiv/products/10819/en/Technical/600805.pdf>.

Please contact your local account team or Refinitiv Customer Support desk should you have any further questions.
