LSEG Stock Reports Plus

The comprehensive source for analytics at the stock, industry, portfolio and market levels

Optimise your investment selection process. Generate compelling ideas and access time-saving research capabilities with LSEG Stock Reports Plus. We combine our independent research, ratings and market data for companies within 50 global markets. We place current data into historical context for a more accurate forecasting of a security's performance.

Stock ratings are provided on a scale of 1 to 10, with clear detail of the data and calculations that comprise the ratings. Our ratings are based on six components – quantitative assessments of key trends on earnings, fundamentals, relative valuation, risk, price momentum, and insider trading.

Stock Reports Plus offers enhanced analysis of security pricing, valuation and fundamental metrics relative to actual market performance. An automated text-generation system provides specific stock and industry highlights. Unique content, such as stock seasonality and extensive insider trading analysis with proven insider scores, is available throughout the reports.

Essential data and analysis for intelligent financial decisions

Stock Reports Plus includes an abundance of detail-driven reports in five different reporting sections and a dashboard.

The reports can be viewed in HTML format, printed in PDF format, or exported into Microsoft® Excel® for further data analysis.

- Stock Analysis displays a thorough picture of a company's performance and outlook. It includes five- and 10-page versions of the Detailed Stock Report with ratings and the supporting data elements.
- Idea Generation reveals potential candidates through broad-level research of the overall market using stock ratings or common financial metrics.
- Industry Rankings identify recent trends among business sectors and industry groups defined by The Refinitiv Business Classification (TRBC) schema.
- Industry/Index Analysis allows for easy comparison of all companies within leading indexes and industry classifications.
- Portfolio Analysis includes detailed information on the individual stocks within customised watchlists.

Stock Reports Plus is available on Thomson ONE® or as a stand-alone web solution. Individual reports can also be integrated into client applications.

a full range of idea-generation tool

Key benefits

- Our global coverage spans 42,000 companies in 50 markets, with more than:
 - 26,000 Asian Pacific
 - 8,000 European
 - 7,000 North American
 - 800 Latin American
 - 700 Middle Eastern
 - 300 African companies
- Use LSEG Stock Ratings and drill down into each component for further analysis
- Compare a company's key metrics with those of its 10 closest peers
- View highlights from the LSEG automated text-generation system that identify the most noteworthy data
- Build custom portfolios and track your selected companies
- Print in PDF format or easily export key data elements into Microsoft Excel, then customise the data to meet your needs
- Rely on timely data with daily updates and weekly calculations of stock ratings
- Select report tips and glossary items that clearly define report criteria and fields.
