Refinitiv FXall AAA

8.0.X QUICK INSTALL GUIDE (CORPORATE EMAIL LOGIN)

AUDIENCE - CORPORATE EMAIL LOGIN (AAA)

- **AAA Corporate email address login** - If you login to FXall using your corporate email address please use this install guide.

- **FXall user ID login (SiteMinder)** - If you login to FXall using your FXall user ID click here to download the *FXall SiteMinder 8.0.x Quick Install Guide (FXall Login ID)*.

INTRODUCTION

This document describes a manual installation of Refinitiv FXall 8.0.x and any subsequent versions and patch releases of 8.0. If you need more information about the installation please refer to the Refinitiv FXall AAA 8.0 Installation Guide.

Warning: It is mandatory that all clients are using version 7.7 or above.
Any clients running a version below 7.7 may lose access to FXall at any time.

The latest FXall Release Notes are available on MyRefinitiv FXall in the **Support Materials** section.

By default, FXall is installed **alongside** previous versions of FXall. See Download and extracting the software below to start the installation process.

DOWNLOAD AND EXTRACTING THE SOFTWARE

1. Ensure your system meets the minimum hardware, software and bandwidth requirements. See the FXT Supported Environments document for details.

2. Click here to go to the **My Refinitiv** – **Software Downloads page for Refinitiv FXall**

   Two versions of FXall are available:

   - 64-bit - **Refinitiv FXall Trading Desktop Application (Windows Version) – 8.0.0.***nnn*

   - 32-bit - **Refinitiv FXall Trading Desktop Application (Windows Version) - 8.0.0.***nnn***.32bit**

   Users must ensure they download and install the appropriate version that matches their operating system.

3. Click the download button (⬇) for the 64-bit or 32-bit version of **Refinitiv FXall Trading Desktop Application (Windows version) – 8.0.0.***nnn* to start the process to download the setup zip file. The setup zip file is used to install FXall.

4. Right-click the downloaded zip file (RefinitivFXallApplication8.0.0.*nnn*-Windows-32bit.zip or RefinitivFXallApplication8.0.0.*nnn*-Windows.zip) and select **Extract All**. The **Extract Compressed (Zipped) Folders** dialog box is displayed.

5. Browse to the location where you want to extract the software to.

6. Click the **Extract** button.

7. Open the folder where the software was extracted to.

8. Double click **Refinitiv-FXall-Setup-64.exe** or **Refinitiv-FXall-Setup-32.exe**. The **InstallAnywhere** wizard is displayed and the install begins.

INSTALLING FXALL

After you have double-clicked **Refinitiv-FXall-Setup-64.exe** or **Refinitiv-FXall-Setup-32.exe,** the **InstallAnywhere** wizard is displayed and then the **Introduction** dialog box is displayed.

NOTE

The FXall Install program is now displayed in Refinitiv branding.

1. **Introduction** - click the **Next** button.

2. **End-User License Agreement** - Review and select the **I accept…** radio button.

3. Click the **Next** button.

4. **Choose Install Folder** - Select the software installation destination folder and click the **Next** button.

5. **User Data Folder** - Select the user data destination folder and click the **Next** button.

6. **Log File Folder** - Select the log file destination folder and click the **Next** button.

7. **Environment Selection** - Select the **Production** checkbox. This is the live trading environment. Only select **Integration** if access has been pre-arranged. Then click the **Next** button.

8. **Proxy Setup** - If a network **proxy** is used by this PC for connection to the Internet, enter the information in the appropriate fields.

NOTE

Check with your local **network administrator** to determine whether a proxy server is used at your site.

The proxy information can be modified later using the **Refinitiv FXall Configuration Manager**. See the Refinitiv FXall AAA 8.0 Installation Guide for details.

9. Enter any relevant proxy specifications

10. Click the **Next** button.

11. **Choose Shortcut Folder** - At the bottom of the window select the **Create Icons for All Users**. Checkbox.

12. Select the appropriate radio button to indicate where the **shortcuts** to FXall are to appear. The default is to create an FXall shortcut in the program group called **Refinitiv FXall_-8.0.0.***nnn*.

    - If this is a new installation of FXall, or you have already uninstalled a previous version of FXall, you can accept the default location and click the **Next** button.

13. **Pre-Installation Summary** - Review the installation details.

14. Click the **Install** button.

15. **Installing Refinitiv FXall_** - When the installation finishes the **Install Complete** window appears. Then click the **Done** button. The installation is now complete. You can now launch Refinitiv FXall 8.0.x.

DEFAULT PATH TO LAUNCH FXALL WHEN USING WINDOWS 8.1

Start > **All Programs** >**Refinitiv FXall_-8.0.0.***nnn* > **8.0.0.***nnn* > **Refinitiv FXall_**. The **Login** window is displayed.

DEFAULT PATH TO LAUNCH FXALL WHEN USING WINDOWS 10

Start > **All Programs** > **Refinitiv FXall_-8.0.0.***nnn* > **Refinitiv FXall_**. The **Login** window is displayed.
