

LSEG Workspace

For Wealth Advisors Stock Reports Plus

LSEG DATA &
ANALYTICS

1. Why should I use the app?

The Stock Reports Plus app in Workspace uses a proven ratings system to optimize your stock selection process and to generate compelling investment ideas. Independent research reports provide time-saving research capabilities for various investment strategies and put the data into context with peer analysis, historical comparisons and text highlights. Component ratings identify meaningful trends in earnings, fundamentals, relative valuation, risk, price momentum and insider trading.

3. Top tips on how to use the app

- To access the app, type **SRPLUS** in the Workspace search box and select the entry from the autosuggest options
- Enter a RIC symbol or company name in the Workspace search box or, to restrict the results to equities only, use the search box in the app

- Click on any blue RIC symbol in the peer sections or reports to view the data for that company
- Click on any blue field heading in the Stock Analysis reports to view a definition for the field
- View and download PDF reports. On the Stock Ratings Summary report, the drop-down list next to the PDF icon includes additional reports that are currently only available in PDF format. The Detailed Stock Report provides the most thorough analysis of each component score in Stock Reports Plus. The last two pages of the PDF reports provide tips that describe the Stock Reports Plus ratings methodology and calculations

- In the Idea Generation reports, hover over a field heading and click on the question mark icon that appears to view a definition of the field. Click on a field heading to sort the data in ascending order and click on the field heading again to sort the data in descending order

RIC	Company Name	Change	Current Average Score	Current Score Meaning
