

ARIBA Supplier Onboarding Program – Supplier User Guide

Refinitiv uses Ariba, a third-party electronic transaction processing tool, to manage our supplier onboarding process and to issue and manage purchase orders (POs) and invoices. All PO based suppliers are required to use Ariba to receive POs (in all countries) and return invoices to us (in e-invoice enabled countries). The supplier onboarding process ensures that all suppliers are screened and set up for payment in our Ariba system so that invoices can be managed and paid efficiently. Suppliers transacting with Refinitiv are required to comply with our mandatory on-boarding set up process and the Refinitiv Supply Chain Ethical Code.

IMPORTANT NOTES FOR SUPPLIERS

- Refinitiv are unable to review and process your company as a supplier until the registration and subsequent questionnaire are completed.
- Any sales invoices received will not be processed until the Supplier Onboarding registration process has been finalised.
- Ariba times out after 30 minutes of inactivity.
- Supported Browsers
 - Microsoft Edge 32-bit
 - Microsoft Internet Explorer 11 32-bit
 - Mozilla Firefox 49+ 64-bit
 - Chrome 54+ 64-bit
 - Safari 9+ 64-bit

You should be aware that Ariba offers two versions; the Light Account and the Full Enabled Account. The Light Account will not incur any fees for you, as supplier, but the Full Account will. When registering with Ariba, you create an agreement directly with Ariba, to which Refinitiv is not a party. **Please ensure that the appropriate Ariba Account type is selected,** as if you select the Full Account, you will receive an invoice directly from Ariba. Refinitiv cannot accept accountability should the incorrect level be selected, nor can it accept liability for any fees incurred. Refinitiv can however assist you to switch back from the Full Enabled Account to the Light Account, if you notify Refinitiv accordingly.
